Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Discussed limitations proposed in amendment. Applicant explained the differences between Carrazonne and his invention. Applicant main invention was not well logs data and wavelet as used in Carrazonne but the plotting of Attribute files with the horizontal files for horizontal binning as claimed in claim 1. The examiner has considered the discussion today and the invention appears distinguishable over the art of record.
